Lead Is Firm Here and a Shade Arrival of New Crop Cause's Re-Higher in the English duction of Ten Cents Capital. Hundred.

CRACKED CORN IS

NEBRASKA CORN

ALSO CHEAPER

Still Further Reduction Likely to Take Place Within Two Weeks.

Wholesale grain merchants are receiving the first of the new crop of corn from the Middle West, and with the first car lot comes a lowering of prices in the local market. These, it is said, will go downward still further within the next two weeks. The price named now is \$1.20 to \$1.25 a hundred, cracked corn selling At | at \$1.30.

Storms on the northwest coast are sible for a decided scarcity in fish. Not a pound of fresh calmon was to be had in Sait Lake yesterday, and other members of the fish family came only in small numbers. What was true of fish was true also of crabs shrimps and lobsters. As soon as the regular winter storms set in there will be not only a scarcity of fish, but a decided increase in prices, and this may be looked for now at any time. Lobsters have already advanced a triffe, although not enough to affect the retail prices.

Wholesale Quotations

morrow will say: Activity is still the keynote of the industrial and commercial situation. Colder weather and the coming Christmas holidays have caused a heavy distribution in nearly every section of the country save in the Northwest, where the rather high temperatures and railway congestion prevent the fullest development. Railway earnings are enormous, but the widesprend blockades are assuming a serious phase and tend to curtail production in some industrial lines. Manufacturing lines are remarkably active. Outdoor construction work is being conducted on an enormous scale, and a shortage of labor is reported from

Wholesale Quotations.

Stock Market Letters.

James A. Pollock & Co., stock and grain brokers, make public the following let-

ters on the stock market.

Logan & Bryan, New York, say:
"Strength ruied throughout today's session. A little hesitation was shown here and there, but the market clearly seemed to show an upward tendency right from the opening. More reassuring news regarding Russian affairs caused London to send higher prices, and further easing off in money rates would seem to foreshadow an improved bank statement tomorrow, making the odds too great for the short interest longer to stand out against the changed conditions. Barring disturbing news, the market should do better." ters on the stock market

against the changed conditions. Barring disturbing news, the market should do better."

Hutton, New York, says. "Stocks look almost inviting to buy at this level, even with the sharp advances since last Monday morning, but it may be the wrong time to buy them now. We advised the purchase of M. K. & T. common at 34 and 35. The public is not interested in this stock as yet, and will not be until it crosses 50 and 55. It will be like Reading and Smelters. It may react 2 points and it may not, but we continue to advise its purchase for a long pull."

T. A. McIntyre company. New York, say: "While we are still strong believers in the future prosperity of the country and think the chances are favorable to higher prices, we are not yet 'out of the woods on the money market for the rest of the year, and we regard the Russian situation as very serious and full of so much danger that we would continue to advise caution in operations, and especially in purchasing stocks on such pronounced bulges as today."

Dick Bros, New York, say: "The market opened with a sharp advance in response to the better feeling abroad over the Russian situation, and throughout the day the list was strong, though irregular and toward the close buoyancy developed, carrying the leading stocks up sharply. Expectations of a good bank statement temorrow and a decline in call money induced much of the late buying a great part of which was urgent covering. New developments included another advance in copper metal and announcement of a New York Central stock issue with subscription rights worth about 6 points. Higher prices are expected to-morrow."

BREAK IN WHEAT ON HEAVY SALES BY BULL **CUTS PRICES DOWN**

Active Demand in First Hour Is Followed by Sudden Slump.

CHICAGO, Nov. 17 .- Weakness in the wheat markst developed toward the end of the first hour. Early in the session the prevailing sentiment was bullish and moderate gains were recorded. At the opening the May option was unchanged to like higher, at 58½ to 58½ c. On active demand from commission-houses and local shorts the price quickly rose to 50½ c.

The buying was largely the result of the strength shown in the price of wheat at European grain centers, all the foreign markets being somewhat above the prices of vesterday. Small shipments from Argentina and the continuance of disturbed conditions in Russia apparently formed the basis of the strength abroad. Small receipts in the Northwest lent also a builtsh influence to the market. On the other hand, there was a less urgent demand for cash wheat at Minneapolis, which resuled in a reduction of its prendum over the December option.

Near the end of the first hour the market showed signs of weakness. Prices broke sharply on liberal selling by prominent bulls. Rumor credited one house with sales of over 1,000,000 bushels of May wheat. Almost immediately there was a general rush on the part of pit traders to sell. The decline brought out numerous stop-loss orders in the commission-houses. For May the lowest point of the day was reached at \$75,055,2 c. The close was weak, with prices near the lowest point of the day and with a net loss of ½50 for for May.

Early in the day the corn market was firm, but the close was weak, May ½ c. Notwithstanding the break in wheat and corn the oats market closed steady. May left off unchanged at 22 c.

Provisions were firm early in the session. The cause for this was the fair demand created by the orders of a lossipacker. May pork closed 19c lower lard was off 2½45c, and ribs were down 2½c.

Dun on Trade Conditions.

NEW YORK Nov. 17.—R G. Dun & Co.'s Weekly Review tomorrow will say.

'A temporary flurry in the money market had little deleterious effect in commercial channels, most reports indicating a further increase in the volume of business. Orders come forward freely for distant delivery and buyers experience much difficulty in making purchases for oulck shipment. Wholesale trade in holiday goods is now well under way, and

retail distribution of seasonable merchandise responds to the generally lower temperature.

There is some delay in collections, but the reports indicate that payments are prompt in spite of the higher money rates. Manufacturing plants have scarcely a drawback except scarcity of labor in a few instances and small strikes that interrupt structural work to some extent. None of these influences affect any considerable proportion of the capacity and there are many new high records of production.

"Traffic conditions have improved and rallway carnings for the first week of November were 49 per cent larger than in the corresponding time last year, while the official statement of foreign commerce for the month of October showed a very large increase in the aggregate, and at this port for the last week exports gained \$5,33,028, in comparison with 1904, while imports decreased \$1,160,047.

Hides continue firm but trading is restricted by the light offerings of packers who are sold far ahead, tather than any lack of demand. Further advances occurred in foreign dry hides.

"Failures this week numbered 240 in the United States, against 217 last year, and 42 in Canada, compared with 27 a year ago,"

Bank Clearings.

NEW YORK Nov 17.—The following table, compiled by Bradstreet, shows the bank clearings at the principal cities for the week ended November 16, 1805, with the percentage of increase and decrease as compared with the corresponding week last year.

JOHN CAMPBELL, Secretary,
Room 4 Commercial Block, Sait Lake City, Utah. City, Utah

NOTICE OF STOCKHOLDERS' MEETING.

ATE THE NOTE

Over 12 years ago the Pioneer Nurseries trusted a man and took his note. When the note was presented for payment the man seized it and ate it; it called for \$120.00.

We collected it the other day, and the man paid us \$334.23 for the note he had eaten. We had five lawsuits over it, and he went into bankruptcy, but he paid just the same. Our lawyers are the best. We handle all kinds of law suits. Address:
